**Update: Proposed Curraglass Wind Farm**

Dear Householder,

I hope this letter finds you well. I am writing to you with an update regarding the proposed Curraglass Wind Farm. I have taken over the role of Community Liaison Officer (CLO) for the project, and I will be your point of contact should you have any queries in relation to the proposed wind farm.

You may already be aware that An Bord Pleanála issued their decision on the planning appeal case at the end of January. The Board decided to grant permission for the proposed 7-turbine wind farm, which is primarily located on the site of the original 10 turbines at this location. Please find enclosed a map illustrating the permitted turbine locations in relation to your property, the previous ten turbines are evident on the aerial imagery map background for context. The map indicates a 1km and 2km buffer off the permitted turbines. We are continuing direct contact with those closest to the development, this information and all further updates will continue be made available on the dedicated project website [www.curraglassinfo.com](http://www.curraglassinfo.com) to inform the wider community.

There is a lot of work to get through before construction commences on site, and we will update you further as the project reaches significant milestones. Unfortunately, the decision was too late to facilitate an application to enter the project in the current Renewable Energy Support Scheme (RESS). RESS is an attractive prospect for the community as it ringfences a portion of the support scheme for significant community benefit, we hope to include the project in any future round of RESS. However, regardless of whether the project enters RESS or not, we have already committed to a minimum community fund of €60,000 per annum. The community fund will be administered in accordance with the wishes of the majority of the local community.

I would welcome any queries or questions you may have relating to the project and would appreciate any feedback in relation to the community benefit fund. Please feel free to contact me, either by email [curraglassclo@turnkeydev.com](mailto:curraglassclo@turnkeydev.com), by phone 086-1427399, or through the 'contact us' portal on the website [www.curraglassinfo.com](http://www.curraglassinfo.com). I look forward to meeting you at some stage as the project progresses.

Yours sincerely,

Kieran Kyne
